Overview - Tynedale Life On The High Seas

Our 2016 / 17 Sailing Season has 16 four night cruises departing New York throughout February and March.

M.V. Tynedale, the original land-based cruise ship, first took to the oceans in 1992 since then, has been copied by many but bettered by none! These ever popular cruise breaks benefit from years of experience and investment of time, money and innovative ideas that create an atmosphere of actually being at sea on a cruise ship. The experience starts with the issue of a passport which gets stamped at each port of call, providing you with a great, permanent memento of your holiday cruise.

Here's what is in store for you
